

CLIMATE ACTION DAY PRISHTINA

December 13, 2019

Red Hall, Youth and Sports Palace

10.00 – 24.00

INVITATION

This Friday we will organize a **climate action day in Prishtina!** On this day climate change will be the most important and only topic on the map. However, we will not only leave it at talking, we have much more planned. We will host **workshops with children** in the morning, where they will make instruments out of recyclable material, and other craft work! The kids will learn about upcycling and how they can do it by themselves. After that there will be an **information action** at NewBorn, where we will have conversations with people about climate change, while drinking some herbal tea.

At **three o'clock**, in the Red hall we will have a **Living library**, people who are environmental and climate activists and are living the consequences of environmental injustice will be there to tell their story and answer your questions.

At **five o'clock** we will welcome **politicians and youth to debate** about climate change, and the local context, this will be moderated by Jeta Xharra. After the debate we will have **workshops and DIY exhibitions for sustainable solutions**. In the evening we will screen movies and have music from **Polar Bears Trio, playing Jazz** and **Stormy Trio** playing Roma, folk and pop rock.

Join us on that day.
